

Youth Climate Conclave

3rd edition

Youth Pledge

We the youth of today and promise of tomorrow
 Pledge our commitment towards addressing the problem of climate change
 We will need a more sustainable lifestyle but also want to contribute to innovation,
 technology and entrepreneurship
 We will

- work for immediate and long-term changes
- focus on positive action to make a difference in the world around us
- stride forward with confidence, zeal and purpose in life.

We the youth of today and promise of tomorrow
 Pledge to work to cut down on emissions, restore and replenish resources, by

- managing waste by adopting integrated waste management practices
- conserving energy and water in our surroundings
- maintain the green cover
- limit our daily consumption

We the youth of today and promise of tomorrow
 Pledge to initiate practices that influence decisions towards 'net zero' commitment
 We commit to leave 'no one behind'
 And promise to nurture indigenous knowledge and respect inter-generational dialogues around climate justice

We the youth of today and promise of tomorrow
 Stand before you as Ambassadors of Planet Earth,
 Pledge to develop innovative and emerging technologies
 We commit to transform into a united and responsible workforce
 Making every act count to address climate change.

We the youth of today and promise of tomorrow

Pledge to ensure that our friends and family will endeavour to pursue sustainable lifestyles, aspiring to create a world filled with hope and empathy

We the youth of today and promise of tomorrow

Will connect the past with the future to safeguard traditional knowledge

We pledge to pause and resolve conflicts and champion the cause of climate change

We will work as a resilient global workforce

Striving for justice, equity and growth for all.
